

**Shouldn't the law protect every person?**

We are all created in God's image and He has a plan for each one of us.

In Florida, what constitutes a person is not defined by law; therefore, legal protection is not extended to the pre-born and is presently in jeopardy with our elderly and disabled.

The proposed personhood amendment would define the word "person" to include every human. It will establish justice and respect for life from the moment of biological beginning until natural death for all races, creeds and abilities, no matter how the child is conceived.

Personhood Florida needs 676,811 valid petitions for ballot access so Floridians can establish life for everyone.
