

FEB 2013

“...all men are created equal...”
US Declaration of Independence

Personhood FL partners with Center for Bioethical Reform

CBR travels to college campuses with large graphic displays and trained young people from across the nation to share the true story of abortion. We will attend their training and offer a solid plan to change that story.

Personhood FL is a Constitutional Amendment to establish justice and respect for all human life from the moment of biological beginning until natural death.

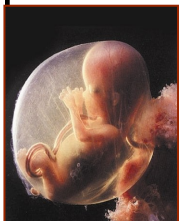

Call or email to get involved! Invite local schools, home schools and organizations to join us. PFL volunteers will attend their training seminars, then set up our tables beside their displays. We will give those attending the opportunity to change the law to defend these pre-born and their mommies.

“The care of human life and happiness and not their destruction is the first and only legitimate object of good government.” ~ Thomas Jefferson
